PARK MEN DEMAND CLEAN SIDEWALKS

The park commissioners will appear before the city commissioners and demand that the city fathers abide by their agreement to order all fruit and news stand dealers to vacate the sidewalks around Court square. This was decided on at a meeting of the park board late Monday afternoon.

At a recent meeting of the park commissioners and the city commissioners in the mayor's office, four of the commissioners agreed that the stands on the streets around Court square should be removed and that Tony Campagna, highest bidder for the park stand, should be allowed to take possession at \$1,350 a year. The park commissioners were then assured that the police department would be instructed at once to order the stands off of the sidewalks.

Since the meeting, however, no move to remove the stands has been made and it was reported at the meeting of the park board Monday that the commissioners or a majority of them had had a change of mind. It was said that Mayor Monteverde, who has always stood out against forcing the stands off, had by "Off Again On Again" and that Leo Goodman, for some reason, had joined the mayor in his stand on the question.

The park commission, however, will demand that the city fathers abide by their agreement.

The mayor has opposed the removal of the fruit stands and the building of a stand in the square on the ground, he claims, that it might bring on the city a lawsuit by the heirs of the McLemores and Overtons who deeded the property to the city.

Couldn't Spoon At 35-Mile Clip—So Good Morning Judge

How did the judge know? Ed Prince was evidently trying to be a prince of a good fellow for he had his girl out riding and when Commissioner Quinn drove up alongside of the pair he claimed they were very affectionate. Now, of course, the commissioner didn't object to the affectionate part but the young man was driving the car at a rate of 35 miles an hour.

"I'll have to fine you, young man," declared Judge Fitzhugh, "because I know you can't keep your mind on driving when under those influences."

MISSISSIPPI GOVERNOR- ELECT AT ROTARY CLUB

Lee M. Russell, Democratic nominee for governor of Mississippi, was the guest of the Rotary club Tuesday afternoon and delivered a brief address at the luncheon. He spoke of the new tax and assessment laws of his state, of which he is a strong advocate, and said that during his administration he intends to work for the improvement of the rural schools and for the plan for supervision of child welfare in every county.

Other guests of the club were Fred Sullivan, editor of the Jackson, Miss. Daily News; John White, cashier of the Federal Reserve bank, St. Louis; M. Bogen, of Rotterdam, Holland, a guest of Joseph Newburger, and Claude Fitzpatrick, vice-president of the Interstate National bank, of Helena, Ark. Members of the club were entertained by the Shrine Chanters. Dr. Percy Toombs presided in the absence of the president.

Gov.-Elect Russell and Mrs. Russell are stopping over in Memphis for a day on their way to Biloxi, Miss.

C. M. BRYAN TO SPEAK FOR OZARK TRAIL

Charles M. Bryan, a member of the speakers' corps of the Chamber of Commerce good roads committee, was appointed a delegate Tuesday to the annual convention of the Ozark Trails convention, to be held Oct. 1, 2 and 3 at Roswell, N. M. Mr. Bryan's appointment is in line with the expressed determination by W. H. Fitzhugh, president of the Chamber of Commerce, that Memphis shall be represented at all good roads conventions in this district. The extension of the Ozark Trails highway from Oklahoma City across Arkansas to Memphis will be one of the most important matters to be discussed at the convention.

Good roads enthusiasts of Roswell requested the Chamber of Commerce here to send several delegates to the convention overland by automobile. The plan has been abandoned owing to the length of the trip and attendant hardships.

NEGRO ACCUSED OF VICTIMIZING OTHERS

Marshall Guy, negro, who claimed to represent the Salvation Army and was buying old clothes under this name, now behind the bars at the city jail, having been arrested by Emergency Officers Robinson and Fitzhugh Tuesday morning.

The officers stated Marshall would go from house to house in different parts of the city buying up old clothes at a very low price from the housewives. His plea was that they were for the benefit of the Salvation Army. He was arrested on a charge of disorderly conduct.

Joe Fitzgerald, desk sergeant, requested that all persons who have been victimized by the negro be in city court Wednesday afternoon at 2 o'clock when he will be given a hearing.

NEGRO HIGHWAYMEN ARE BOUND OVER

Four negroes who have been identified by a number of victims of their bold daylight robberies were given a hearing in city court Monday afternoon. Ed Pettis was not positively identified by any of the 15 witnesses present and his case was continued until Thursday afternoon when officers expect to procure more witnesses.

James Petty, South Wellington street, and Will H. Jones, Florida street, were fined \$25 for the city by Judge Fitzhugh and held to the state on charges of highway robbery and carrying pistols. Will Lee, Kentucky street, was bound over to the state on a charge of highway robbery.

Why Women are Thronging to See the Charming New Designs in Metal Beds by Simmons Company

NO woman needs to hear the advantages of the metal bed over wooden beds explained to her—nor does she need to be told how badly the old-style metal beds look in the room.

The bare announcement a short time ago that Simmons Company had at last achieved truly good design in metal beds was enough to throng the prominent stores where these beautiful beds are being shown.

IT will interest you to know that this achievement of Simmons Company is something a good bit broader than even the matter of line and form and composition.

It involves a fundamental invention of great practical importance—the invention of the first truly seamless tubing ever produced for metal beds.

Even a clever designer can produce little with the old-style tubing but the outworn mechanical designs. The old tubing has a seam running the full length. It is apt to be rough—does not take the enamel smoothly.

But this *Seamless Steel Tubing*—exclusive Simmons idea and property!

Here is a tubing square and trim. A tubing truly free from seam, split, pit or rough spot. A tubing that works kindly into shape. A tubing that finishes smooth and takes the enamel in one even, unbroken coat all over—free from chance of scratch, check or chip.

All these new Simmons designs are made with the Simmons Seamless Steel Tubing.

The "PLYMOUTH" No. 1809

It is made of Simmons Seamless Square and Rectangular Tubing throughout. Decorations in relief. Easy running casters. Your choice of Double Width and

Twin Pairs—and especially pleasing in Twin Pairs. Has the Simmons Patented Pressed Steel Noiseless Corner Locks. Enameled in Ivory, the Decorative Colors and Mahogany, Oak and Circassian Walnut effects.

HIGHWAYMAN RUNS INTO DEPUTY PALMER

M. W. Palmer, deputy sheriff, doesn't always have to go out looking for law violators. Sometimes they run right into him and he has to arrest them whether he will or no. Monday night near the Tri-State fairgrounds one Ethiopian held up another and relieved him of the sum of \$4.00. He turned to run and ran into Palmer, who arrested him. The other negro then appeared and made the charge and Palmer took the bold highwayman to jail.

CHICKEN STEALING ONLY OCCUPATION

"What else do you do besides steal chickens," asked Judge Fitzhugh of Isaac Hardy, negro. "That's all," replied Isaac. "Fine him \$50 for disorderly conduct," said the judge. Isaac was caught with a sack containing four chickens. He was unable to explain satisfactorily to the judge just where he found the birds.

MEMPHIANS ENJOY RENEWAL OF SCENES OF WILD WEST

Left to right: Thomas J. Semmes, John R. Coates, B. J. Semmes and William G. Byrne.

Indians in airplanes; Indians on horseback; white men in autos; a buffalo running like mad down a stretch of prairie—the pony-mounted Indians overtake and with bows and arrows kill the buffalo.

These are but a few of the scenes—savoring of the West in years gone by—which were witnessed by W. G. "Bully" Byrne, former Memphis newspaper man, and which were vividly related to him in a recent issue of the Fort Worth Star-Telegram. Byrne, along with John R. Coates, B. J. Semmes and "Tommy" Semmes, Memphisans, were guests a week ago at the famous Goodnight ranch in Armstrong county, Tex., the celebration marking the introduction of "Karakule Bill" McAlister as new owner of the ranch. About 200 guests witnessed the portrayal of what were common scenes in old frontier days, with the exception of the automobiles and airplanes.

Included in the exhibition were riding feats by cowboys, riding a wild buffalo, roping stunts, and the throwing of a steer by a cowboy. By far the most exciting stunt Byrne saw, was the chasing and killing of a buffalo—airplanes, automobiles and horsemen joining in the hunt. The animal was started down a two-mile pasture, closely pursued. Frightened by the popping of the airplane motor and the clanging of the automobiles the buffalo veered into a fence, crashed through and made his escape. Another buffalo was turned loose in the big arena and after a chase was killed when steel-tipped arrows, shot by accurate Indian lightning, pierced his body.
